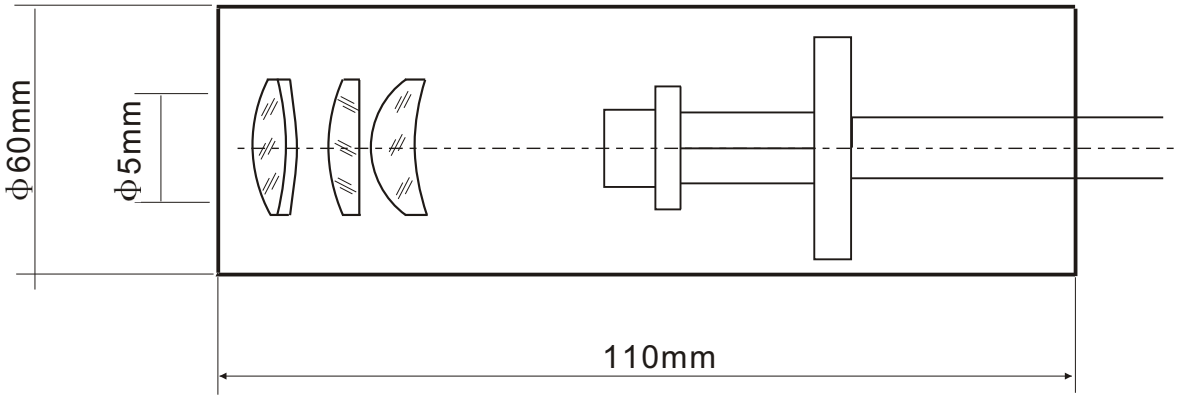
HUANIC optoelectronic

Infrared Laser Module

Type : DH808-4000-5


Main Technical Parameters:
Size : Φ60mm × 110mm
160×75×53
Wavelength : 808nm
Operating voltage : DC 5V
Operating current : ⩽ 5A
Divergence : 1.0mrad
Output aperture : Φ5mm
Output power : 4000mW
Operating distance :
Optics : glass lens both sides AR coated
Wire length : 2×100mm(or connector wire and plugs)
Operating temperature : − 10℃ ~ +40 ℃
Storage temperature : − 40℃ ~ +80℃
Life time : ⩾ 5000 hours
Accessories choose and buy :
